The change of name, address, or phone number form from Eastern University is displayed. The form includes sections for the student's personal information, such as their name, address, and phone number. It also includes a section for the effective date of change and the type of address being changed. The form specifies that the student's permanent address must be their family home, and that they must list a local address if they are not living in their family home. The form also contains information on how to present legal documentation to make changes. The last section of the form is for the student's signature, which is required for all changes. The form is designed to ensure that the university has accurate and up-to-date information for each student.
